

Innovating Agriculture with
World-Class Excellence

A full-page background image showing a farmer in a grey shirt and dark pants, bent over and working in a field of tall, golden-brown grain. The sun is low on the horizon, creating a warm, golden glow and long shadows. The farmer's head is bowed, and their hands are near the ground, possibly inspecting or harvesting the crop. The field stretches out to a distant horizon under a clear sky.

Brand

Philosophy

At Vishal, we believe in machines that work as hard as farmers do. Our philosophy is simple yet profound — empower the backbone of our nation with world-class harvesting solutions that are rooted in Indian soil and engineered with global precision.

Our journey is built on the faith of generations of farmers, the vision of progressive leadership, and the dedication of our workforce. With every combine that leaves our facility, we deliver more than a machine — we deliver progress, pride, and prosperity.

Message from the Managing Director

Dear Readers,

It gives me immense pride to present to you the journey and promise of Vishal Combine Harvester. From humble beginnings in a modest workshop to a brand recognized across Indian farmlands and international markets, we have stayed true to our roots while embracing change.

Our progress is driven by a deep understanding of farmer challenges and a tireless pursuit of engineering excellence. As we scale new heights with the trust of our customers and the dedication of our team, we reaffirm our commitment to innovation, reliability, and farmer-first development.

Thank you for being a part of our story.

Sukhwinder Singh Manku

Managing Director

WHO ARE WE?

VISHAL Group is a leading Self Propelled and Tractor Driven Agricultural Equipment Manufacturing Company Internationally for over 40+ years.

Vishal Combine Harvester is a leading Indian manufacturer of advanced agricultural machinery, committed to revolutionizing modern farming through precision engineering and innovation. With decades of expertise, we specialize in designing and delivering high-performance combine harvesters tailored for diverse crop conditions, both in India and across global markets. Our products are a result of rigorous research, farmer-centric design, and uncompromising quality standards, making Vishal a trusted name in agricultural mechanization.

Our Mission

To empower farmers worldwide by engineering durable, efficient, and intelligent harvesting machinery that increases yield, reduces effort, and enhances agricultural sustainability.

Our Vision

To become a globally admired agricultural technology brand, leading with innovation and farmer-focused mechanization across continents.

Core Values

Our organization is governed by unwavering core values that influence every decision and every product:

Innovation: Solving ground-level farming problems through engineering and design excellence.

Integrity: Transparent and ethical operations from production to partnerships.

Farmer-First: Building relationships over transactions, machines around user-experience.

Commitment to Quality: Every unit undergoes rigorous testing and quality checks.

Sustain ability: Materials, methods, and machines that reduce environmental impact.

What Makes us Unique?

1. Indigenous Engineering Excellence

100% designed, developed, and manufactured in India with cutting-edge R&D tailored to Indian and international crop conditions.

2. Comprehensive Product Line

Specialized in both multi-crop and maize harvesting solutions, offering performance-driven machines for varied field requirements.

3. In-House Manufacturing & Quality Control

From fabrication to final assembly, our vertically integrated production system ensures uncompromising quality and cost-efficiency.

4. Farmer-First Philosophy

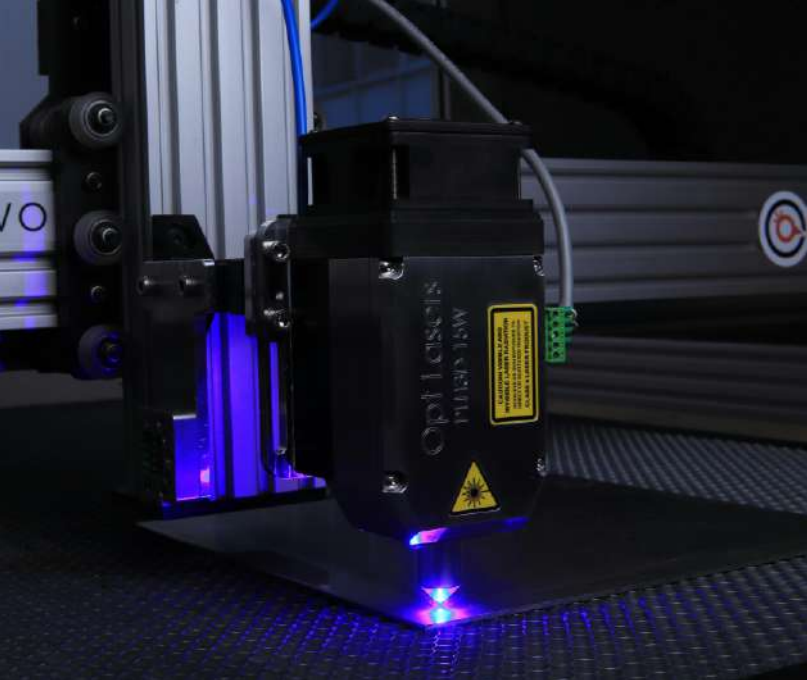

Every machine is built with feedback from real field conditions—ensuring ease of use, durability, and maximum yield.

5. Global Export Footprint

Supplying to international markets with strong dealer and service networks across Africa, Asia, and beyond.

6. Innovation-Led Features

Pioneering solutions like our upcoming Hydrauger™ discharge system redefine productivity and operational ease in harvesting.

Manufacturing Excellence

Our main 11+ acre facility is not only a production powerhouse but a symbol of our engineering independence. Equipped with:

- CNC & VMC machining centers
- Robotic welding stations
- Laser and plasma cutting units
- Powder coating and surface treatment zones
- In-house test track simulating tough field conditions

Our ability to control design, fabrication, assembly, and testing ensures every Vishal machine meets the same global standards, batch after batch.

Our Brands

Our identity is enriched by strategic brand extensions that cater to distinct market segments:

- **VISHAL:** Engineered for performance, innovation, and long-term reliability. The VISHAL brand serves both domestic and international markets, offering a wide range of agricultural machinery tailored to meet the needs of farmers across different geographies. Known for durability and performance, VISHAL products have become the preferred choice for agricultural professionals seeking reliable and efficient solutions.
- **ZOOM** by Zoom Agro Solutions Pvt. Ltd.: Developed for value-conscious markets, Zoom delivers cost-effective harvesting solutions without compromising the fundamentals of quality and productivity. Zoom Agro is our both domestic as well as international brand designed to deliver world-class performance with innovative features that cater to the specific requirements of global customers. Zoom products are engineered with precision, ensuring compliance with international standards and delivering unmatched value to our esteemed clientele.

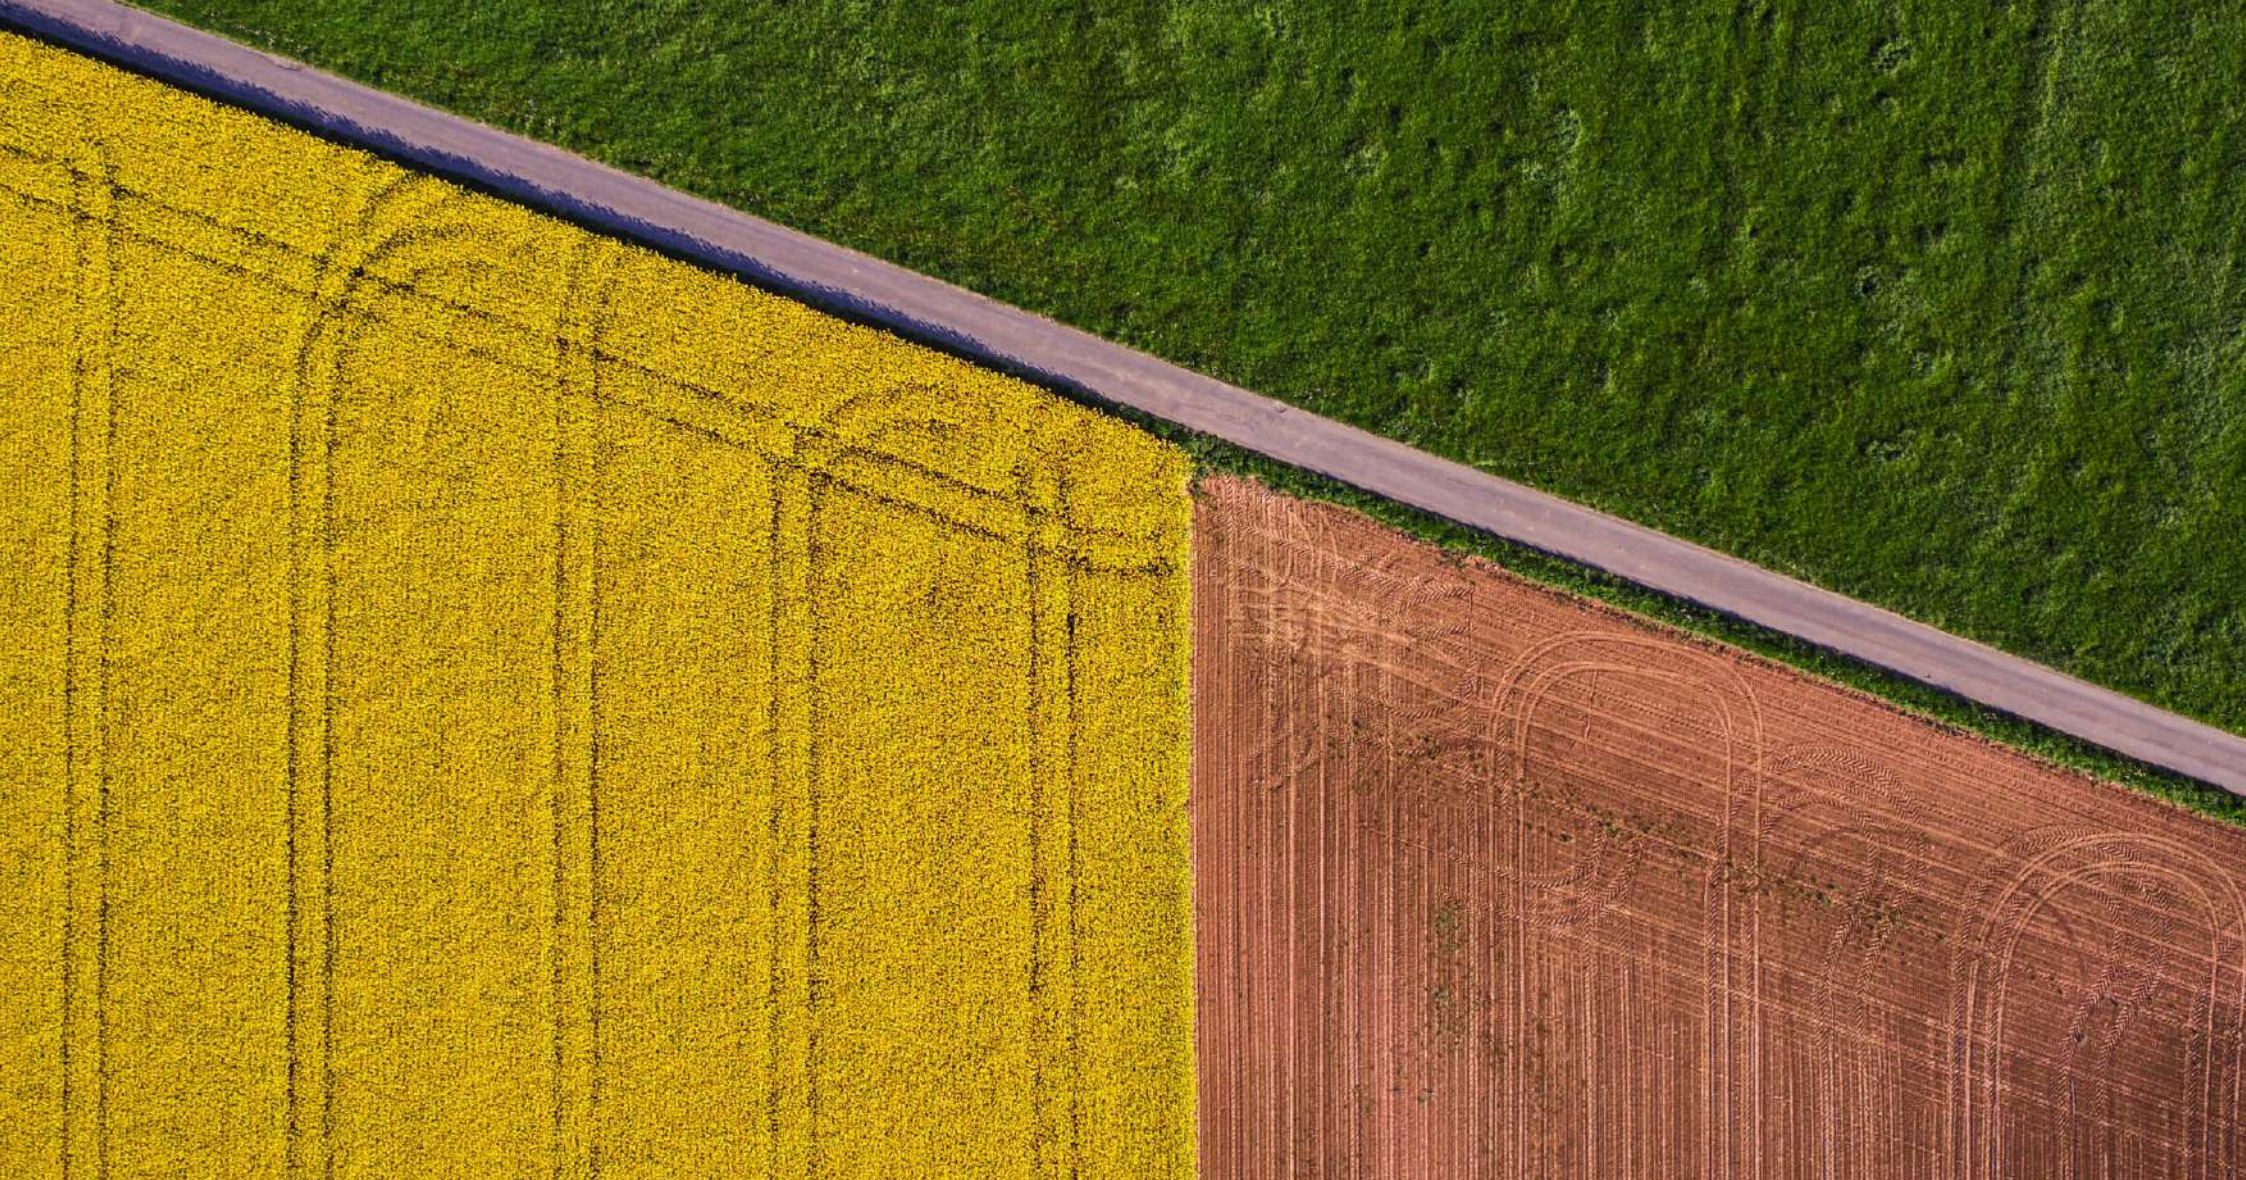

Brand Market:
Domestic & International

Brand Market:
Domestic & International

Both brands represent a singular commitment to mechanized agriculture with regional customization and excellence.
